Chicago, May 16.—Beilef in almost total depletion of contract stocks was the principal influence surrounding a strong wheat market today. At the close July showed a gain of 13.615c. Corn is up 26.3c. Outs are 14.25c, thicker of the light properties of the light properties.

As the result of the prevalence of the idea that the local contract stocks are practically exhausted, sentiment in the practically exhausted, sentiment in the wheat pit was bullish from the start. an urgent demand from shorts during the entire day There was also active buying to replenish long lines. Offerings were comparatively light. In order to secure any considerable amount of wheat it was necessary to bid up prices sharply. A matter which attracted much attention

from speculative traders was the fancy prices paid here for cash wheat, a sale of 10,000 bushels of No. 1 northern being reported at 1½c over the May prices. The strength in the cash situation in outside markets wash an additional buil factor. A semi-ocial Russian crop report was quite bullish, the claim being made that unfavorable weather had greatly retarded the growing plant. The visible supply expected-a decrease of 1.655,000 bushelsand this fact added to the strength. The demand continued active throughout the session, but offerings were at no time large. The market closed almost at the top price of the day, final figures on July being at 85%c, after sales had been made at \$5%c. May sold between 914c and 93%c and closed at the high point. Clearances of wheat and flour were equal age decreased 729,000 bushels. Primary receipts were 218,300 bushels, against 230,000

Advancin tendency, in line with the strength in wheat, was experienced in the corn market. A strong feeling prevailed at the close. July opened 464c to 464c higher at 47%c to 47%c, advanced to 48%c and closed at 48c. Local receipts were 63 cars with 5 of contract grade.

Notwithstanding a decline of 10c in the price of hogs the provision market was quite firm, due mainly to the strength of grains. Offerings were restricted and were eagerly taken by shorts. July pork closed with a gain of 10c, final figures being \$11.27%. Lard was up 25c at \$6.45. Ribs closed 567%c higher at \$6.45.

STOCKS AND BONDS.

New York, May 16.—The stock market was under pressure again today and prices gravitated to a lower level in an irregular way without much resistance. The depressing causes were the quite general distrust and hesitation reflected in the business world and the rapid changes taking place in the resources of the money market by reason of the heavy gold outgo. A special aggravating cause was the renewal of the liquidation in the Eric stocks, with the acute weakness resulting. The severe decline in the earnings reported by that system by the expressed fears that the maintenance of the dividend of the first preferred stock.
